They were towed by at least a quarter of a mile of hawser. When out of the port the stars and stripes of the Spanish colors and the colors of the Spanish flag were hoisted on the masts of the ships.

Notes.

WASHINGTON, April 21.—At a cabinet meeting this morning, at which all the members of the cabinet were present, with the exception of Secretary Herbert of the navy department, the financial situation, it is understood, was the almost exclusive topic of discussion. The meeting lasted for two hours and a half and was the longest session of the cabinet since the new administration came into power.

When the treasury department closed its doors this afternoon the gold reserve of the treasury had been drawn down to the extent of \$2,000,000. Large withdrawals of gold for shipment from New York cut this down to such an extent that when the cabinet met, Secretary Carlisle found that the gold reserve was only \$1,000,000.

It is believed that the gold reserve will be restored to its original figure, \$10,000,000.

While nothing official can be obtained here as to the decision of the treasury department in regard to the payment in gold of the bonds of the Atkinson House-furnishing company, it is believed that the decision will be in favor of the company.

It is also believed that the decision will be in favor of the company.

THE TROUBLE IN THE SANTA FE SHOPS YET UNSETTLED.

The Men at Argentine Served With Copies of the Injunction Issued at Topeka.

The Company Hiring Men to Take the Places of the Old Employees—A New Force at Arkansas City.

The Conference Between the Union Pacific Managers and the Strikers' Committee Comes to Naught—The Omaha Shipmen Willing to Compromise the Matter—The End of Building Trade—Other Items of Note.

KANSAS CITY, April 21.—The only development of any importance in the Santa Fe strike situation at Argentine was the issuance this morning of a restraining order to prevent the strikers from working any damage to the property of the company, interfering with the service of the road, delaying or stopping the work of the men in the employ of the company or intimidating them. This is a modification of the order as it was issued for the strikers to leave the road.

Other clauses in the order would have prohibited the presence of the strikers on the property of the company, and would have restricted them from interfering with the new men pay money to cease to work. The court ordered these clauses stricken out.

ARKANSAS CITY, Kan., April 21.—A train, just due from the north, has twenty men on board, who will be put to work in the shops tomorrow, to take the place of the striking boilermakers, machinists and blacksmiths. As many more are expected in a day or two. No trouble is expected from the strikers.

OMAHA, Neb., April 21.—No conclusion was reached at the conference between the Union Pacific officials and the strikers' committee this afternoon. The meeting was held in General Manager Dickinson's office and was conducted by Mr. Dickinson, Superintendent of Motive Power, Mr. Smith and Assistant Solicitor General of the company and the general committee of strikers. It lasted nearly three hours, and was conducted with the utmost courtesy. After the conference adjourned at 10 o'clock, the strikers remained in the building to wait for the return of the strikers' committee.

One of them said that there would be nothing to tell before Sunday. It was thought that some conclusion would be reached.

It is known that the demands of the strikers will not be needed to, and that reply was given the committee today. The men are now holding out for a compromise of the strike, and the strikers' committee is now holding out for a compromise of the strike.
